AFTERMARKET PARTS
DIVISION

MBST

MBST was specifically developed for severe service applications in the transit industry. MBST is the ideal metallic, as its matriculation of steel wool and interlaced brass fibers provides excellent performance through both cold and hot temperature ranges. The brass maximizes thermal diffusion and conditions the brake drum.

PERFORMANCE FEATURES

- ⇒ High Temperature stability - will operate in temperatures approaching 1000 degrees F
- ⇒ Handles severe terrain and high load capacities
- ⇒ Exceptional lining life and drum wear

Best of all Worlds

- ⇒ Can be Bolted
- ⇒ Can be Riveted
